

GVA Playing An Important Role In Bristol's Success Over Four Decades

GVA is one of the UK's leading firms of property consultants, operating from 12 offices throughout the UK and with an associated network of offices across 25 countries worldwide.

Bristol is the recognised economic capital of the South West and as such was the obvious choice for GVA to locate its South West regional office. Since then Bristol has experienced spectacular growth, becoming a vibrant city of international importance.

We are pleased to have played an important role in the success of Bristol over four decades, lending our expertise to many development and regeneration projects. To accommodate further growth and expansion in the region, GVA moved into brand new BREEAM rated 'Excellent' offices at St Catherine's Court, Clifton in 2009.

Now with over 80 staff based here, GVA offers one of the most comprehensive and in-depth property services in the South West, including office, industrial and retail agency, planning and regeneration, lease consultancy, investment, rating, building consultancy, property and facilities management as well as valuation and development consultancy. Our national primary healthcare consultancy team is based here in Bristol.

Regional senior director, David Mace, comments, "Bristol offers a first class location for us to service our South West based clients, which include many of the most active government bodies, developers, investors and corporate occupiers."

Thanks to our high quality consultancy work on projects such as SPark (the Bristol and Bath Science Park), Temple Gate at Temple Meads and the South Bristol Community Hospital, GVA was delighted to be named the South West Business Insider Property Consultancy Firm of the Year 2010.
